Why Buy Servo-X Range

VersaCare

Big in use, small in storage, the Servo-X trolley range will always find favour in the many locations where space is at an absolute premium.

All Servo-X trolleys can fold easily for storage and the laundry bags can be removed, incorporating drag handles and our top closure system.

Servo-X uses all the same bag sizes as our NuKeeper and NuBag units, providing total uniformity and allowing a fully integrated and co-ordinated professional approach to system planning.

Engineered from the highest quality recycled plastic, using environmentally sustainable ReFlo Technology, the NuBag Range benefits from unique heavy-duty Structofoam construction, using co-polymer grade material, making it tough, chemical-resistant, easy to clean and built to last.
